Profile

Frontend Software Engineer with **2+ years of experience** building scalable, high-performance web applications using **React.js, Next.js, TypeScript, and JavaScript**. Experienced in developing reusable component libraries, integrating REST APIs, optimizing performance, and creating responsive, accessible interfaces following WCAG standards. Skilled in modern frontend architecture, design systems, and delivering reliable, maintainable solutions within Agile teams.

Experience

PRISMATECS | Cairo (HYBRID)

Frontend Software Engineer, Egypt | [NOVEMBER 2025 – Present]

- Develop modern, scalable web applications using React.js, Next.js, TypeScript, and JavaScript.
- Build reusable and maintainable UI components following component-driven architecture.
- Develop responsive user interfaces using modern CSS technologies and best practices.
- Integrate frontend applications with REST APIs and backend services.
- Optimize application performance using techniques such as lazy loading, code splitting, and efficient rendering.
- Ensure accessibility compliance using semantic HTML, ARIA standards, and keyboard navigation.

SCANDIWEB | LATVIA (REMOTE)

Software Engineer | AUGUST 2024 – OCTOBER 2025

<https://explore.omsystem.com>

- Built scalable and reusable frontend components using React.js and TypeScript.
- Developed responsive Product Listing Pages (PLP) and Product Detail Pages (PDP) using component-driven architecture.
- Integrated frontend applications with APIs and CMS-driven content using Sanity CMS.
- Contributed to a shared React codebase serving multiple regional websites.
- Optimized application performance through efficient rendering strategies and improved data fetching.
- Developed accessible interfaces using semantic HTML, ARIA attributes, and keyboard navigation.

<https://www.purdys.com>

- Developed React-based frontend features for authentication flows, customer dashboards, and dynamic content sections.
- Integrated REST APIs to support real-time data rendering and personalized experiences.
- Redesigned sign-in and sign-out workflows with improved state management and user experience.
- Built reusable components for homepage sections, headers, footers, and dashboard pages.
- Improved performance by minimizing unnecessary component re-renders.
- Ensured WCAG-compliant accessibility through proper form semantics, focus management, and screen-reader support.

MOSELEY MEDIA DEVELOPMENT | CAIRO

Software Engineer | MAY 2024 – JULY 2024

- Developed responsive and reusable user interfaces using React.js, JavaScript, and modern CSS solutions.
- Built modular frontend components following scalable architecture principles.
- Integrated REST APIs for dynamic data visualization and user interactions.
- Enhanced application responsiveness and performance across different devices and screen sizes.
- Implemented accessibility best practices using semantic HTML, ARIA roles, and keyboard-friendly interactions.
- Collaborated within Agile development teams and participated in peer code reviews.

FREELANCER

WEB DEVELOPER | JUNE 2022 – APRIL 2024

- Designed and developed modern web applications using React.js, JavaScript, HTML5, and CSS3.
- Created scalable component-based frontend architectures.
- Integrated RESTful APIs to deliver dynamic and interactive user experiences.
- Built responsive interfaces compatible with mobile, tablet, and desktop devices.
- Applied performance optimization techniques and accessibility standards (WCAG).
- Delivered maintainable and user-focused solutions for different clients and projects.

Education

Sept 2018 - Jun 2023

B. Sc in Mechanical Power Engineering, Menoufia university

Skills

- | | |
|----------------------------------|--------------------------------|
| • React.js | • Web Performance Optimization |
| • Next.js | • Lazy Loading |
| • TypeScript | • Code Splitting |
| • JavaScript (ES6+) | • Memoization |
| • HTML5 | • Accessibility (WCAG) |
| • CSS3 | • Semantic HTML |
| • Responsive Web Design | • ARIA |
| • Single Page Applications (SPA) | • Git & GitHub |
| • Tailwind CSS | • NPM |
| • Bootstrap | • Vite |
| • Sass / SCSS | • Webpack |
| • Material UI | • Agile |
| • CSS Modules | • Jira |
